Primary Examiner, Art Unit 3682

1. The amendment filed on July 8, 2008 has been entered.
2. Claims 8-12 are allowed.
3. The following is an examiner's statement of reasons for allowance: the claims are allowed because of the limitations, such as, "the lateral walls (52) including a first lateral wall (52a) that *completely* separates the opening (40) and the slot (50) and at least a second lateral wall (52b) that extends longitudinally within the slot (50) between a first end and a second end and supports the first lateral wall (52a)" (reference characters and emphasis added) in Claim 8. See page 9 of the original specification, the amendment and replacement drawings filed on January 31, 2008.

The closest prior art Terradas'794 (DE 100 17 794 A1 cited in Applicant's specification) teaches a pedal security system for pedal mounting, particularly in motor vehicles, comprising:

a pedal 10 rotatably mounted by means of a pedal axis 25a;

a U-shaped pedal block 30, 40 including a leg 40 having defined therein an opening (i.e., a space between the legs 40, see Attachment hereinafter "Att.") for receiving and retaining the pedal axis 25a;

a slot (see FIG. 3B and 3C of Att.) adjacent to the opening (Att.); and

lateral walls, the lateral walls including a first lateral wall (i.e., the outer side wall of the element 42 in FIG. 3C) and the slot (FIGS. 2A and 3A) and at least a second lateral wall 25 (FIG. 2B) that extends longitudinally within the slot (FIG. 3A) between a first end (FIG. 3C of Att.) and a second end (FIG. 3C of Att.) and supports the first lateral wall (FIGS. 3A-3C)

the pedal axis 25a engages the first wall (Att.) and breaking the first wall (FIG. 3C) by exceeding a mechanical limit loading of the pedal axis 25a.

However, Terradas'794's first lateral wall does not completely separate the opening and the slot as seen in FIG. 3B. If one makes Terradas'794's first lateral wall completely separates the opening and the slot, one would render Terradas'794's pedal system to be inoperative for its intended design.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Terradas'091 (slot 1) and Terradas'169 (U-shaped pedal block 2 in FIG. 3).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vinh T. Luong whose telephone number is 571-272-7109. The examiner can normally be reached on Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on 571-272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
